

Water Cooler Accessories

POU Installation Rail and Filtration Systems

Installation Rail With Filter

Includes a Compression Fitting, a Non Return Valve, a Pressure Reducing Valve and a Water Block.

It also includes a Filter consisting of our re-useable Filter Housing (to avoid plastic waste) and either a Carbon Block Filter Candle (PFRAILKIT) or a NANOFilter Candle (PFRAILKITNANO) which fit into the Filter Housing. Both Candles can be recycled with household waste. The NANOFilter Candle has a high Pharma Rating and removes 99.9% of viruses and cysts.

Installation Rail (PFRAILKIT)

Rail & Nano Filter (PFRAILKITNANO)

Rail & Carbon Filter (PFRAILKIT)

Filters

Re-usable Filterhousing to stop Plastic Pollution For use with NANOFilter- or Carbon Block Filter Candles. (For more info see FILHOU)

NANOFilter Candle for use with the Filterhousing. Excellent Flow Rate, High Pharma Rating, removes Chlorine taste and odour and can be disposed with household waste (For more info see NANOF or FILTCARHOUNANO)
